The background of the advertisement is a dynamic scene featuring several LEGO Creator 3-in-1 models. In the upper half, three yellow and black propeller planes are shown in flight against a blue sky with white clouds. In the lower half, three blue and white racing vehicles are shown on a grey road. One is a dragster, another is a sport bike, and the third is a chopper bike. The overall theme is versatility and speed.

# MINING MACHINES!

**T**hese mega-powerful mining vehicles are tough, rugged, and built to drill, dig and scoop their way deep below the surface. The Power Miners are on a mission to save the world from the underground menace of the rock monsters, and with these mighty machines on their side, they're sure to get the job done!

Check out cool Power Miners videos featuring the set designers on [powerminers.LEGO.com](http://powerminers.LEGO.com)!

## 8959 CLAW DIGGER

Nothing is better than the Claw Digger at ripping up rocks and tearing down walls. Even rock monsters run when they see those big claws swinging - and for good reason, because that shovel can scoop them right up if they get in its way!

- Hydraulic claws swing up and down to smash, rip and dig.
- Big spoked wheels roll over any obstacles in the way.
- Shovel lifts to scoop up crystals or capture rock monsters.
- Turbo-fueled rear engine boosts power to wheels and claws.
- Heavy armor and roll-cage resist impacts, cave-ins and rock monster teeth.

## 8961 CRYSTAL SWEEPER

The Crystal Sweeper was built to collect and store crystals while fending off rock monster attacks with its heavy armor plating. It's the biggest, toughest vehicle on the Power Miners team so far!

- Turbine-powered harvester wheel spins as it rolls to gather up crystals and deposit them in rear-mounted collection bucket.
- Rotating side-mounted crane uses laser-cutter drill to excavate crystals.
- Control cabin and spotlights give crew an all-around view of crystals, rock monsters and underground traps.
- Power cycle deploys for emergency rescues or escapes.

### 8958 GRANITE GRINDER

With its double-pronged rock hammer peeling away at crystal-packed boulders and core walls, the Granite Grinder pecks more stone-smoothing power than a whole barrel of dynamite!

- Dual-pronged jackhammer automatically strikes and retracts as vehicle rolls
- Extra-wide treads provide maximum stability on underground terrain
- Wagon sled attaches behind vehicle to tow crystals back to base
- Cockpit-mounted searchlight illuminates dark caves and tunnels

### 8960 THUNDER DRILLER

The Thunder Driller's massive spinning drill is the only thing powerful enough to dig through the planet's solid crust. It brought the Power Miners to the underground caverns, and it'll get them home when the mission is done!

- Double-gear planetary drill rotates as wheels roll
- Giant titanium wheels grip any surface for traction while digging
- Magma-core engine delivers almost unlimited power to drill and wheels
- Heat-resistant plating protects against molten lava and rock impeller attacks
